

TALKING ABOUT JOBS

Vocabulary Builder

Professions in the Metal Sector

è Task1: Match the names of the professions with the appropriate descriptions
(Ordnen Sie den Namen des Berufs der passenden Beschreibung zu)

**Blacksmith // Draftsperson // Fabricator or Welder // Fitter // Fluid Power Fitter // Metal Machinist
// Toolmaker // Mechanical Engineering Associate**

1. _____ : creates technical drawings used in manufacturing and construction.
2. _____ : assist mechanical engineers and engineering technologists with the design, manufacture, construction, operation and maintenance of machines, manufacturing equipment, mechanical installations and mechanical facilities.
3. _____ : installs, maintains and/or repairs hydraulically and/or pneumatically operated and/or controlled machines.
4. _____ : is a professional who works with metals, such as iron, shaping them into useful or decorative shapes.
5. _____ : use a range of tools and engineering techniques to maintain and repair mechanical plant machinery and equipment to operational standards.
6. _____ : spend the day cutting, shaping, and combining materials to make different parts for a variety of industries, e.g. construction, engineering, automobile, or aerospace fields.
7. _____ : is a person who uses machine tools to make or modify parts, primarily metal parts, a process known as machining.
8. _____ : cut precision tools like jigs, dies and moulds. These are then used in manufacturing to make products, for example the parts used on a vehicle assembly line.

è Task 2: Now write the German names of the professions:
(Schreiben Sie nun die deutsche Übersetzung der Berufsbezeichnungen)

blacksmith: _____
draftsperson: _____
fabricator or welder: _____
fitter: _____
fluid power fitter: _____
metal machinist: _____
toolmaker: _____
mechanical engineering associate: _____

Vocab Corner:

drawing – Zeichnung
manufacturing – Herstellung, Production
construction - Konstruktion
to assist – assistieren, unterstützen, helfen
engineering – Maschinenbau
operation – Bedienung
maintainance – Instandhaltung
iron - Eisen
to shape – formen
to repair – reparieren
mechanical plant – mechanischer Betrieb/Fabrik
machinery – Maschinenanlagen
equipment - Ausrüstung
maintain – warten, aufrechterhalten
tool – Werkzeug
precision - feinmechanisch
vehicle – Fahrzeug
assembly line – Montageband, Fließband
