

## Aquilino Juan

- **My Institution:** University of Oviedo
- **Subjects that I teach:**
  - Projects Management
  - Architectural Patterns
  - Programming Language Design
  - Software Engineering
- **Short, warm, informal paragraph to introduce yourself to students (no longer than half of the page):**
  - I'm a PhD in Computer Science Engineering and I was working at the University of Oviedo for more than ten years. I was teaching in the Computer Science School (Oviedo) and at the Polytechnic Engineer School (Gijón), both in the University of Oviedo.
  - Currently I'm the head of the Innovation Centre of the University of Oviedo. One of the more important objectives in this Centre is the support of the e-learning virtual learning environment and the innovation in such area as well. From this point of view, the participation in TeaCamp Project is very important for my institution.
